			<p>LGB 1/11/2018: Have had multiple conversations with LPA, and system has completed internal plumbing replacement and 2 round of 6M monitoring <AL in 2017. This PWS was part of the 2017 file review and had installed CCT due previous ALEs; however, the PWS stopped conducting CCT once their monitoring came back below the AL. Based on the compliance history and considering the fact that the PWS was previously required to install OCCT, I am changing the status to "CCT Required". State/LPA will need to make a determination that they are optimized.</p> <p>FT 12/22/2017: Didn't do 6 mo monitoring after 2014 ALE</p> <p>LGB 10/17/2016: Spoke with Stanislaus County today and learned that samples were below the AL. PWS replaced all metal distribution plumbing with PVC. Need to confirm that consecutive 6M sampling was completed. I informed REHS that system needs two 6M to reduce monitoring.</p> <p>LGB 9/1/2016: Communications with Stanislaus County indicate that LPA and District are coordinating efforts on this facility.
